BEAUTIFUL TREASURES FROM EXOTIC LANDS

MADAGASCAR IMPORTS LTD.

YOUR SOURCE FOR COLORED GEMS

FEATURING

Menavi Quality Cut®

WELCOME TO MADAGASCAR IMPORTS

For those of you who are receiving our catalog for the first time, we want to give you a little background about our company.

With decades of experience in Madagascar, the bulk of our inventory started coming from there over 10 years ago. Although we carry gems from many parts of the world, the primary source of our inventory comes from this amazing country and East Africa. Madagascar continues to surprise the world with the sheer variety of minerals found there, and we are certain there are many treasures yet to be discovered.

We feature **MENAVI Quality Cut®** colored gemstones which are expertly faceted in standard sizes by Menavi International in their own cutting factory. The results are **beautiful, calibrated gems at fair prices.**

In response to your numerous requests to make our catalog a “point of sale” tool, you will now find **all prices are listed at suggested retail.**

Please remember that we offer a variety of other gemstones in many shapes, and sizes, so always call for our current inventory.

We look forward to continuing to see you in person at trade shows and during our travels around the country. But in between those infrequent encounters, please refer to this catalog and let us know how we can be of service to you. We look forward to working with you.
